

# Henryville Elementary

The 2012- 2013 School year has truly been a REBUILDING year here at Henryville Elementary School for our students, families and community!

Miraculously we were able to start our school year in a rebuilt facility after the March 2, 2012 tornado totally destroyed our school. After spending the majority of our 2011-12 spring semester in the Graceland Baptist Church buildings in New Albany, we were thrilled to get back "Home" in the fall. Over the course of the first semester we acquired classroom furniture, textbooks and supplies for our students and staff. Our entire collection of school library books were replaced in November. Our electronic book collection grew to over 600, funded through the Rotary Club. We then and now have been coming to a "new normal," as our school and community are still in the process of recovery. Overall, HES students and staff have been very resilient considering all of the issues involved. We are truly thankful for God's mercy in this entire situation.

Our academic programming is definitely back in place and we know that our students are making good progress in spite of all the change in our lives. Our reading indicators and tests for our students show significant gains. We are expecting good results from our spring ISTEP and IREAD tests.

When our gym was available late in the fall, we were able to again host games for our girls and boys 5th and 6th grade volleyball, basketball teams and cheerleaders. All of our teams had very successful seasons and our coaches were very proud of the girls and boys. We also cheered for our Hornet athletes in cross country and track with good sportsmanship and a winning attitude.

We continue to challenge our students every morning of each day with Positive and Powerful words for good behavior, with readings from our students, along with the pledge to our United States flag, a moment of prayerful silence and our Hornet Pledge. Our Hornet TV program each Friday has been fantastic!

We celebrated with our students at our "Evening of Academic Excellence" with the Science project competitions, a beautiful Art Show and "Author's chair" and a Grand Opening of our Library. We enjoyed a delightful elementary Christmas musical program, with our chorus, a Spring musical and a band program. What talent we have!

We are proud of our students and thankful for our parents and families, our PTO, and all those who are involved in building heritage through our children especially during this time of recovery for all!

Thank you to all, for the new beginning and for a GREAT school year!

Dr. Glenn Riggs, Principal
